

AI GOVERNANCE

From Assessment to Operation in 5 Weeks

Closing the gap between AI potential and defensible policy.

THE CHALLENGE

Most organizations are navigating the gap between AI innovation and AI policy.

We transform “Responsible AI” from a vague concept into a rigorous, defensible operational framework.

In **35 days**, your business moves from discovery to a fully functioning governance ecosystem.

BY THE NUMBERS

35 DAYS

From zero to defensible

3 PHASES

Fully integrated governance ecosystem

THE 5-WEEK IMPLEMENTATION ROADMAP

PHASE 1 DIAGNOSTIC & INVENTORY

- Stakeholder calibration sessions
- Control gap analysis
- Framework harmonization & compliance mapping

FRAMEWORK DEVELOPMENT (WEEKS 2–3)

- Governance-in-a-Box Delivery
 - AI Charter
 - Acceptable Use Policy
 - RAI Control Standards
- Seamless workflow integration

OPERATIONALIZE MONITORING (WEEKS 3–5)

- High-risk use case work-aides
- Self-serve risk assessment deployment
- Role-specific resilience training

Speed to Certainty. | Frictionless Integration. | True Defensibility.

We build into your workflows, not on top of them
